

PAVAN D R

Computer Science Engineering | Software Development | AI & Full-Stack Applications
pavandr715@gmail.com | +91-8088317032 | linkedin.com/in/pavandr-ai | github.com/pvndr | Bengaluru, India

PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience in software development, AI/ML, full-stack applications, APIs, and database systems. I aim to apply my technical knowledge to build practical solutions and strengthen my expertise through real-world engineering challenges.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, SQL

Web & Backend: React, TypeScript, FastAPI, Flask, HTML, CSS, REST APIs

AI/ML & Data: Machine Learning, RAG, Pandas, NumPy, Scikit-learn, Sentence Transformers, Data Preprocessing, Feature Engineering, Data Visualization

Databases & Tools: SQLite, ChromaDB, Git, GitHub, VS Code, Jupyter Notebook

Core CS: Data Structures & Algorithms, Object-Oriented Programming

PROJECTS

RAG Starter — Full-Stack Retrieval-Augmented Generation Application

React • TypeScript • FastAPI • SQLite • ChromaDB • Sentence Transformers • Gemini API • JWT

- Built a full-stack RAG application for document upload, semantic retrieval, and grounded AI responses with source citations.
- Implemented document extraction, semantic chunking, Sentence Transformer embeddings, ChromaDB retrieval, and Gemini-based generation.
- Designed a layered **FastAPI backend** with persistent conversations, streaming responses, JWT authentication, bcrypt password hashing, and user-isolated data.

CricShift — Cricket Momentum Shift Detection & Win Probability Prediction

Python • Machine Learning • Pandas • NumPy • Scikit-learn • SQL • Flask • Data Visualization

- Developed a full-stack cricket analytics platform to predict win probability and detect momentum shifts using ball-by-ball match data.
- Engineered match-state features and integrated **XGBoost, Random Forest, and Gradient Boosting** models with live cricket data through RapidAPI.
- Built a **React/TypeScript dashboard** for live and historical analysis, player statistics, visualizations, and match-state simulation.

EDUCATION

B.E. — Computer Science Engineering

2023-2027

K. S. School of Engineering and Management (KSSEM), Bengaluru

- CGPA: 8.56

Pre-University Education

2021-2023

Anubhava Mantapa PU-College, Davanagere

- Percentage:88.5%

CERTIFICATIONS

IBM SkillsBuild Guided Learning Experience (GLE) | IBM SkillsBuild / Edunet Foundation | 2026

Explore Machine Learning Using Python | Infosys Springboard | 2026

AWS Academy Graduate – Cloud Developing | AWS Academy | 2026
